I, the above signed, am an independent contractor, and understand that I am responsible for all tax withholdings, FICA, and self-employment taxes due. I have specific control over the order and sequence of work performed, time completion and the hours worked. I am paid by job production or by completed job, but not by my time. Due to these factors, I realize that I have the opportunity for entrepreneurial profit and loss. I also understand that I will receive a 1099 so that I may file the proper self-employment forms due for Income Tax purposes at the end of the year. I also understand that I may be responsible for filing a quarterly estimate of Federal Taxes to cover self-employment income reported.¹
